## High Pressure Hose Crimping Machine

### *Technical Specification*

#### **Introduction:**

Our hose crimpers is one of our new products, it is a heavy type. Our technicians already have mature technology for many years, we add the self-filling oil cup on the machine head, in which you can fill oil automatically. we also add oil grooves on the die base, very easy for lubrication and cleaning. This machine has large mouth, low gravity, convenient operation, and the swaging force grow doubled because of mechanical convert design, operation will be easy. And the machine oil system can be cooled circularly, so it supports long time working and large quantity working. We will do our best to make one satisfactory brand!
